

# MALDI MS<sup>2</sup>

## AXIMA-TOF<sup>2</sup><sup>™</sup>

MALDI high performance TOF-TOF mass spectrometer, designed without compromise to fulfil the needs of the modern state of the art laboratory and deliver great versatility for emerging research themes.

- **True high energy MS/MS** – CID with laboratory frame collision energy of 20keV
- **Excellent precursor ion selection resolution** – using revolutionary gating technology
- **Outstanding sensitivity** – uncompromised design, to ensure no MS/MS signal is discarded

Shimadzu Biotech bringing you technology to science through innovative technologies, to create the world's most powerful analytical solutions for life sciences and drug discovery.
