BioFocusDPI
A Galápagos Company

From gene to candidate drug

Accelerate drug discovery through our gene-to-candidate discovery process

- **Target discovery**
Novel targets identified in human primary cells
- **Assay development**
High-throughput biochemical and cellular assays for any target class
- **Hit finding**
Hits from chemogenomic, diverse and natural compound collections
- **Hit-to-lead and lead optimization**
Focused medicinal chemistry and ADMET studies
